

NOURISHING HAND CREAM *Verdure*

Need a quick pick-me-up for your hands?
Give dry, chapped and tired hands a healthy, youthful glow with our nourishing hand cream. Scientifically proven to intensely condition and repair, this non-greasy formula will leave you feeling just as pampered as a manicure would.

Malée, is Inspired by the rich landscapes, alluring scents and ancient wisdom of Africa, our luxurious fragrance and body care range balances 100% natural active ingredients and scientifically proven formulas to heal, protect and pamper your skin.

The Perfect TOUCH

Simply squeeze a pea-size amount of product into the palm of your hand and gently rub your hands together until all of the product has been absorbed. Pay special attention to dry areas such as knuckles, cuticles and nails.

The wisdom of Africa is in your hands

Light | Silky | Nourishing

Delightfully uplifting and refreshing, Verdure takes you on an exhilarating journey through the lush mangroves, earthy forests and dewy wetlands of Africa.

As fresh as dew on a spring leaf, this fragrance will leave you feeling youthful, energetic and confident all day.

Legend has it that in Tanzania, raindrops were believed to be the tears of Udo, goddess of youth and beauty – a sip of which could grant eternal beauty.

Honestly BEAUTIFUL

We believe that beauty secrets should be shared. By knowing the origin of our 100% natural active ingredients, you can make the best choices for your skin. This product contains extracts from naturally occurring plants, fruits and oils found in Africa, including Caprylic/Capric Triglyceride (nourishing coconut oil fatty acids), Cera Alba (also known as white beeswax), avocado oil (high in Vitamin A, B and D), sweet almond oil (high in Vitamin A, B1, B2 and B6), wheat germ oil (high in Vitamin E) and shea butter (Butyrospermum parkii butter).

“I absolutely love the story of Malée and the warm, fresh scent they evoke in Verdure is the perfect interpretation of their South African roots”

Lorna McKay
The Perfume Society
