# A MENTION FROM lisa

Malée's Verdure Conditioning Body Scrub  
(RRP £36 for 250g)

As longer days and warmer nights draw nearer, endless social media feeds of sunshine breaks and luxurious destinations with a tinge of wanderlust has the world thinking more and more of bikini ready skin. Our favourite statement summer wrap dress or that off the shoulder top needs a little skincare help to look flawless and glowing wherever you go. Like Lisa Eldridge, we believe that no spring / summer break is complete without healthy skin. She says of our Conditioning Body Scrub while on holiday.

*"Another natural treat... and doesn't leave a heavy, oily residue on skin... like some body scrubs, Love"*

Beautifully smooth and radiantly youthful skin never goes out of style. Our award-winning body scrub uses a gentle yet effective combination of multi-grain natural salt, skin-loving oils and sugar with naturally occurring alpha hydroxy acids to draw in moisture, smooth away imperfections and reveal the healthy, youthful skin beneath.
