YOUR
wanderlust
ESCAPE
THE DAILY
GRIND

Embark on a rejuvenating aromatherapy journey through Africa.

Introducing Malée's new range of aromatherapy candles. Inspired by the diverse landscapes, alluring scents and ancient wisdom of Africa, the latest addition to Malée's renowned fragrance and body care range burns bright with the lively spirit of the continent.

From the moment the wick meets the flame, a captivating scent fills the air – igniting your wanderlust and sweeping you away on an aromatherapeutic journey through Africa. Two new fragrances, Polyanthes and Peppersage, join ever-popular Verdure to complete this season's fragrance trio.

Invigorate: YOUR SENSES

Bursting with bright citrus, mint and patchouli, Verdure takes you on an exhilarating journey through the lush mangroves and dewy wetlands of Africa. Provocative Polyanthes captures the essence of African night flowers as they bloom in the moonlight, releasing their subtle floral scent into the cool night air. Inspired by centuries of African philosophy and local tradition, Peppersage restores a sense of calm and balance to your soul with spicy black peppercorn and notes of clary sage.

*Boost your energy levels with refreshing Verdure.
Enhance your allure with provocative Polyanthes.
Calm your soul with spicy Peppersage.*

Inspired by centuries of African philosophy and local tradition.

100%: SOY BEAN OIL

Soy candles with pure cotton wicks burn easily and cleanly for up to 50 hours at room temperature. The wax can be easily removed with soap and water – so you don't have to worry about spilling it on your clothing or furniture. For best results, trim the wick to 1cm before lighting.

100% natural soy bean candles with pure fragrance oils burn for longer, releasing intense scents that linger in every room. As the wax melts, it transforms into warm, scented oil that can be used as a luxurious body moisturiser or massage oil for radiantly beautiful skin.

Limited Edition: CANDLE COLLECTION

Feel the rhythm, energy and passion of the African Masquerade. Drawing from the festive celebrations and rituals of West Africa, the Masquerade flares to life with exclusive designs by award-winning fashion and beauty illustrator Jacqueline Bissett. The rhythmic rustle of a raffia headdress. Intricate tribal patterns, ceremonial beadwork and shell tassels. A bright burst of colour and vivid brushstrokes. It all comes together in a mesmerising tableau that adorns each candle and its iconic container.

A limited-edition collection with only 150 candles in each scent, and a 3-in-1 votive trio set, are now available in the UK.

Launching exclusively in-store at Harvey Nichols with a 4-day event of interactive installations, live illustrations and inspiring demonstrations from 22 to 25 March 2017.

Our Conscious LUXURY PROMISE

Sustainably sourced, cruelty-free and fully recyclable, all Malée products are as kind to the environment as they are to your skin. We use only what your skin needs and exclude unnecessary mineral oils, animal-derived ingredients, many known allergens and harmful parabens and silicones.

- Made with 100% natural pure soy bean oil
- No parabens or silicones
- Sustainably sourced
- Not tested on animals
- Fully biodegradable
- No animal-derived ingredients
