

## WINTER SKIN *saviour*

Winter is a notoriously bad season for skin. Icy rain, raging wind and freezing temperatures all take their toll, leaving you with dry, chapped skin that looks tired and dull. Even if you're all bundled up in warm coats and mittens, your skin still goes into hibernation during winter, which causes it to lose its suppleness and healthy radiance too.

*Inspired by* AFRICA.  
*Grounded in nature,*  
*perfected by* SCIENCE

Inspired by the rich landscapes, alluring scents and ancient wisdom of Africa, our luxurious fragrance and body care range balances 100% natural active ingredients and scientifically proven formulas to heal, protect and pamper your skin.

Our fragrances capture the vivid and invigorating scents of Africa, awakening your wanderlust and taking you on a sensory journey across the continent. Designed for women and men alike, our universally appealing products are perfect for anyone who loves to be pampered.

### *Conscious* LUXURY

Our products are as kind to the environment as they are to your skin.

We use only what your skin needs and exclude unnecessary mineral oils, animal-derived ingredients, many known allergens and harmful parabens and silicones. Sustainably sourced, cruelty-free and fully recyclable.

For more information, visit [www.maleeonline.com](http://www.maleeonline.com).

### *The* SOLUTION

But who says you can't have that warm golden summer glow in winter too? Boasting a potent blend of super-concentrated natural oils, plus essential vitamins, fatty acids and skin-tightening peptides, Malée Moisturising Oil nourishes, repairs and brings your skin back to summer beautiful. What's more, this multipurpose wonder product can be used on hair, nails, skin, hands, and in the bath for an all-over hydration boost. It's the all-in-one winter beauty product you simply can't do without.

### *The Perfect* TOUCH

Add to a lukewarm bath for better absorption or apply at night when circulation increases and your skin is most receptive to moisture.
